✓ DANCE FLOOR SIZING GUIDE – WHICH ONE TO CHOOSE?

Choose between 1200×1200mm (4'×4') and 915×915mm (3'×3') panels

Dance Floor Size (ft)	1200×1200mm (4'×4')		915×915mm (3'×3')	
	Panels Needed	Dancers	Panels Needed	Dancers
8' × 8'	4 panels	6–8 dancers	9 panels	6–10 dancers
8' × 12'	6 panels	10–14 dancers	12 panels	12–16 dancers
12' × 12'	9 panels	16–20 dancers	16 panels	18–24 dancers
12' × 16'	12 panels	20–30 dancers	24 panels	24–32 dancers
16' × 16'	16 panels	30–40 dancers	32 panels	32–42 dancers
16' × 20'	20 panels	40–50 dancers	40 panels	42–54 dancers
20' × 20'	25 panels	50–60 dancers	50 panels	54–66 dancers
20' × 24'	30 panels	60–70 dancers	60 panels	66–80 dancers
24' × 24'	36 panels	80–90 dancers	72 panels	80–100 dancers

Dancer capacity is an estimate and may vary based on event type and dance style.

EXAMPLE

10 × 10 PANELS (3' × 3')

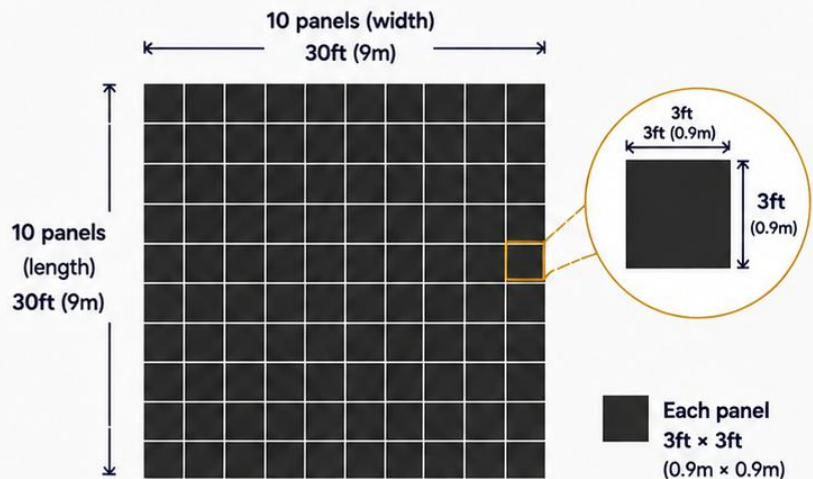

10 × 10 = 100 panels
Total panels

Coverage: 30ft × 30ft
(approximately 9m × 9m)

Suitable for
100–120 dancers (approx.)

* Dancer capacity is an estimate.

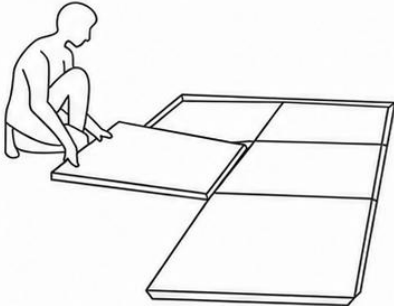

Coverage: 30ft × 30ft
(approximately 9m × 9m)

INSTALLING

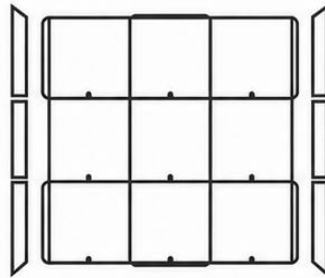

01 PLACE PANELS

Lay the first panel in the desired position, then continue placing the remaining panels.

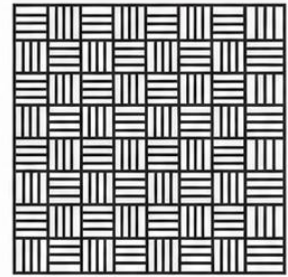

02 ALIGN & CONNECT

Align panel edges and connect them securely to form a stable floor.

03 COMPLETE THE SURFACE

Repeat the steps until the entire area is covered.

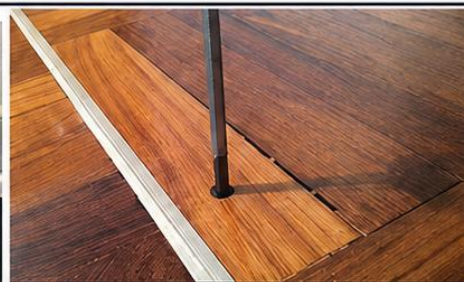

EDGE DETAIL

Precision aluminum edges for a clean and professional finish.

INTERLOCKING SYSTEM

Secure connection between panels ensures a level and stable floor.

FINISHED LOOK

Sleek aluminum edging for a polished and seamless appearance.

EASY CONNECTION WITH TOOL

Use the included T-handle tool to tighten and secure the interlocking connection for a firm and even surface.

STABLE CONNECTION

Interlocking design ensures a firm and wobble-free floor.

PREMIUM FINISH

Aluminum edging enhances durability and appearance.

EASY INSTALLATION

Simple steps and tool-assisted locking for quick setup.

VERSATILE APPLICATION

Ideal for events, stages, exhibitions, and more.

TRANSPORT PACKAGING

CARTON

2 panels per case.

25 cases are stacked and palletized into one unit, then packed in a carton box with PE foam padding between layers for maximum protection during transport.

TROLLEY

Moves 16–20 panels in a single trip.

Designed to fit standard dance floor panel sizes (3'x3' or 4'x4'), improving transport efficiency and saving time and labor.

FLIGHT CASE

Secure storage and easy transport.

Holds 8 dance floor panels securely. Aluminum edges can be stored inside the case. Built with high load capacity and equipped with silent wheels for smooth and safe movement.
